*June 1, 2015*

## *Recommendation*

*I have called on the expertise of AAA Floodmasters several times over my assignments in ministry. Every time, the value of saved time, money and emotional trauma has been a relief for my congregations and me. This company is truly consummate professionals that will always take what looks like a disaster and turn it into a huge blessing. Whether it is water, wind, fire or storms, these folks should be on your speed dial! They are on mine! They will bring decades of experience in restoration and repair in a trustworthy, integrous and pleasant method. I will not call anyone else, they are the best!*
